MEMORANDUM

To: CDL Clients
From: Management
Subject : **Carbon Copies**
Date: May 8, 2013

Dear Client,

If you require CDL to send an additional copy of results to another doctor, you must clearly fill out the “Carbon Copy” section of the requisition. Please indicate the doctors’ full name and their fax number or email address.

If you would like CDL to send a copy of the results to the patient, you must indicate it clearly in the “Carbon Copy” section of the requisition. Please indicate the patients’ fax number or email address. Please note that due to CDL’s Confidentiality Policy there are certain results that we cannot send to patients: HIV, Hepatitis C, Hepatitis B, Paternity tests, Ultrasounds, Maternal Serum Screen testing, Pathology tests, Syphilis, Chlamydia, Gonorrhea, Cervical culture, Urethral culture, Genital Herpes.

Please also note that if carbon copy information is missing or incomplete, it may lead to a delay in sending the results or to CDL being unable to fulfill the request.

Finally, attached is a copy of our standard requisition indicating the “Carbon Copy” section. If you have a personalized requisition and you do not have this section, please contact our document control coordinator, Nicolas Taris, preferably by email at ntaris@cdllabs.com or by phone at (514) 344-8022 ext. 274 (indicate your requisition number which is located on the bottom left hand corner).

We wish to thank you for your cooperation.
